### **Introduction**

A student satisfaction survey is a valuable tool used by educational institutions to gather feedback from students regarding their overall experience with the institution, courses, facilities, and services. It aims to gauge the level of contentment and identify areas of improvement to enhance the quality of education and student life.

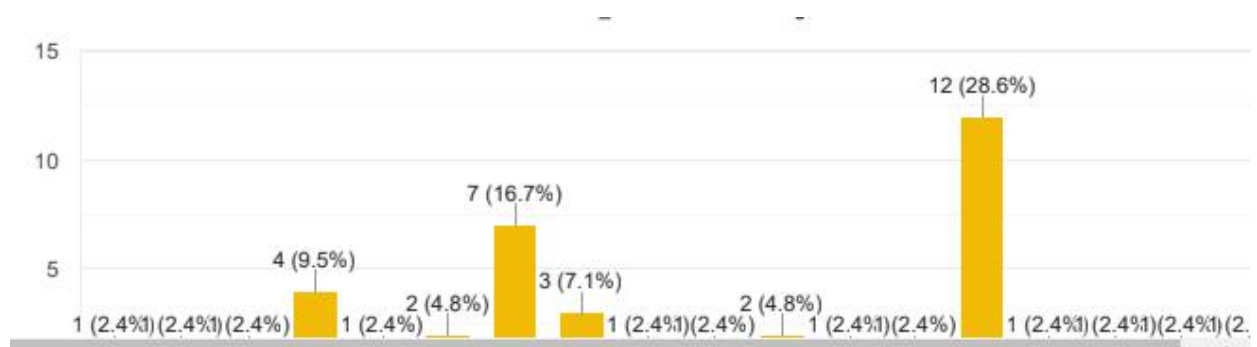

### **Survey Design**

The first step is to design a comprehensive survey questionnaire that covers a wide range of topics relevant to the student experience on teaching and learning. This includes academics, faculty support, ICT tools, soft skills, social environment, administrative services, and more. General suggestions for improvement are also included in the survey form

### **Conclusion**
